7. In the E-waste generated by the Mobile Phones, which among the following metal is most abundant?
   a) Copper b) Silver
   c) Palladium d) Gold

8. The Hydrochlorofluorocarbons (HCFCs) are the compounds which have the following molecules:
   a) Hydrogen b) Carbon
   c)Chlorine d)Fluorine

9. SMOG is derived from :
   a) Smoke b) Fog
   c) Both A and B d) Only A

10. Excess of fluoride in drinking water causes:
    a) Lung disease b) Intestinal infection
    c) Fluorosis d) None of the above

11. Expand (i) CFC (ii) AQI (iii) PAN

12. What is SMOG and how it is harmful for us?

13. List all the wastes that you generate, at home, school or during your trips to other places. Could you very easily reduce the generation of these wastes? Which would be difficult or rather impossible to reduce?

14. Write notes on the following:
    a. Eutrophication
    b. Algal Bloom

15. What effect can fertilizer runoff have on an aquatic ecosystem?

16. How can we control eutrophication?

17. Discuss the role of an individual to reduce environmental pollution.

18. How does recycling help reduce pollution?

19. Discuss briefly the following :
    a. Catalytic converter
    b. Ecosan toilets

20. What are some solutions to toxic dumping in our oceans?
