and healthcare augment humans with machines, producing a beta version of the human body. The advent of brain machine interfaces is certain to blur the boundary between humans and machines. Scientists are working hard to find a technique for age reversal too. People do not want to die, so mankind is striving to get to the final frontier, which is development of machines and devices that would accord man immortality.

The needs of humans are not limited. As time passes, food habits change, thinking patterns change, and even appearances change. We are about to travel by driverless, fully automated vehicles. Computers and smart phones have become our masters. The more we depend and merge with technological advancements, the more the humanness in us slowly erodes. Intelligence is sought to be infused into machines and robotics are designed in such a way to give man a virtual human companion. The field of artificial intelligence is overtaking the human brain and many fear that it could even harm the human race. Despite certain limitations and potential threats, many believe that cyborgs will be the next step in the evolution of mankind. The amalgamation of man and machine is sure to add a new dimension to the life of mankind and this will prove to be the 'biggest evolution in Biology' since the emergence of life, four billion years ago.

a) Account for the popularity of characters with supernatural powers.

b) Who is referred to as a 'Cyborg'?

c) What is expected to happen with the advent of the brain machine interface?

d) The needs of humans are not limited. How is this statement elaborated in the passage?

e) How can a machine turn into a virtual companion for humans?

f) Explain the flipside of the rapid technological advancement.

g) Identify the word in para 1 which means 'everlasting life'.

h) Which of the following words is synonymous with 'amalgamation'?

a) recreation b) integration
c) exploration d) proposition

i) Which of the following options is the antonym of the word 'advent'?

a) drawback b) dispute
c) departure d) danger

j) Find out the word which is the antonym of 'natural' in para 3.
