7.8.2 Over subscription

When the number of shares applied for is more than the number of shares offered for subscription, it is said to be over subscription. This situation can be dealt with as per any of the following three alternatives:

(a) Some applications are accepted in full and others are totally rejected. Application money is returned to the applicants for rejected applications.

(b) All applications are allotted in proportion of shares applied for. This is called pro rata allotment. Excess application money may be returned or may be retained for adjustment towards allotment money and call money.

(c) A combination of the above two may be applied.
