performed by one person is automatically checked by another person.

4. **Rotation of Employees:** A good system of internal check should provide transfer or rotation of employees from performing one work to another at frequent intervals.
5. **Proper Training to Employees:** An effective system of internal check should carefully select the employees to the organization. The employees should be properly trained and clear instructions should be given to them to perform their work in an effective and efficient manner.
6. **Proper system of Documentation:** Internal check system should provide for proper system of filing vouchers, correspondences etc. in a systematic manner.
7. **Periodical Review:** The system of internal check should at frequent intervals (be reviewed) and suitable changes should be introduced.
8. **Usage of Electronic Equipment:** The system of internal check should provide for usage of labour saving electronic devices such as calculating machines, personal computers, time recording clocks, book-keeping machines etc. The proper training should also be given to the employees for using these devices.

Example: picture showing the flow of internal check system in a textile showroom.

1.5 Objectives of Internal Check

The objectives of internal check are as follows:

1. **Early Detection of Errors and Frauds:** The main objective of internal check is to detect and prevent the occurrence of errors and frauds at an early stage. This is possible as the work of each and every person is independently checked.
2. **Minimization of Errors and Frauds:** It is one of the primary objectives of internal check. As the work performed by each individual is checked by another person, there is a check on errors and frauds. Hence, the possibility of errors and frauds are minimised to a greater extent.
3. **Division of Work:** Internal check provides for proper division of work based upon each and every persons
