9) Fossils are generally found in
a) igneous rocks b) metamorphic rocks
c) volcanic rocks **d) sedimentary rocks**

10) Evolutionary history of an organism is called
a) ancestry b) ontogeny
c) phylogeny d) paleontology

11) The golden age of reptiles was
a) Mesozoic era b) Cenozoic era
c) Paleozoic era d) Proterozoic era

12) Which period was called "Age of fishes"?
a) Permian b) Triassic
c) Devonian d) Ordovician

13) Modern man belongs to which period?
a) Quaternary b) Cretaceous
c) Silurian d) Cambrian

14) The Neanderthal man had the brain capacity of
a) 650 – 800cc b) 1200cc
c) 900cc **d) 1400cc**

15) According to Darwin, the organic evolution is due to
a) Intraspecific competition
b) Interspecific competition
c) Competition within closely related species.
d) Reduced feeding efficiency in one species due to the presence of interfering species.

16) A population will not exist in Hardly-Weiberg equilibrium if
a) Individuals mate selectively
b) There are no mutations
c) There is no migration
d) The population is large

17) List out the major gases seems to be found in the primitive earth.

18) Explain the three major categories in which fossilization occur?

19) Differentiate between divergent evolution and convergent evolution with one example for each.

20) How does Hardy-Weinberg's expression ($p^2+2pq+q^2=1$) explain that genetic equilibrium is maintained in a population? List any four factors that can disturb the genetic equilibrium.

21) Explain how mutations, natural selection and genetic drift affect Hardy Weinberg equilibrium.

22) How did Darwin explain fitness of organisms?

23) Mention the main objections to Darwinism.

24) Taking the example of Peppered moth, explain the action of natural selection. What do you call the above phenomenon?

25) Darwin's finches and Australian marsupials are suitable examples of adaptive radiation – Justify the statement.

26) Who disproved Lamarck's Theory of acquired characters? How?

27) How does Mutation theory of De Vries differ from Lamarck and Darwin's view in the origin of new species.

28) Explain stabilizing, directional and disruptive selection with examples.

29) Rearrange the descent in human evolution
Austrolopithecus → *Homo erectus* → *Homo sapiens* → *Ramapithecus* → *Homo habilis.*

30) How does Neanderthal man differ from the modern man in appearance?
