The Rudra formation, The Hercules formation, Nethra Global formation and several other formations by Air force mark the culmination of the Republic Day Parade, ending with a stupendous fly past by the Jets and helicopters carrying the National Flag and the flags of the three services.

It's been a day of joy and celebration. Once again with greetings to the Nation on this Republic Day, Anitha, Yusuf and Manoj take leave and sign off. JAI HIND.

Unit 3

General Packet Radio Services known as GPRS has been around for quite some time. It was established in the early 2000s and is widely used across the world today. It is an extension of the global system for mobile communication.

GPRS works by allowing data to be stored into 'packets'. This data is then transmitted in an efficient manner across the mobile network. GPRS, however, is much faster than the cellular network system. This type of networking system can be used worldwide without difficulty.

GPRS devices are extremely versatile. Any device that has GPRS capability will allow the user to have not only mobile communication but also access the internet for things such as e-mail and internet browsing. You can even adjust various settings on the device in order to keep track of things like changes in temperature, sound and motion.

Car tracking devices are cheaper and easier to install. They mainly work via GPS satellite navigator, although in some cases a radio frequency or cellular network can be used, if GPS coverage is poor. The actual set up is really very simple; each vehicle transmits a signal to orbiting satellites which relay this information back to a specified computer. The vehicle information is then displayed on maps, allowing you to monitor speed and exact whereabouts.

By utilising real-time vehicle tracking you can get accurate information about the travel. Although this system enables you to avoid traffic and find the quickest road to travel, you will still find an excuse to be late!

Unit 4

Valli : Hello, Surya. Did you read today's newspaper?

Surya : No, is there anything important, that you want me to read?

Valli : Yes, Surya. There's an article on creating sarees with natural fruits, bamboo and aloe vera fibre.

Surya : Oh! That's great! How is that possible? Can you give me more information?

Valli : I'll read out the article; "Natural Fibre Weaving". "The rhythm of the loom" welcomes visitors to Shanmuga Mudhaliar Street nearly 9km from Chennai Airport. There are 90 weavers in the cluster. The cluster consisting mostly of third generation weavers was formed nearly 90 years ago, along the banks of the Adyar River.
