PASSAGE - 2

These Islands of great beauty, home to the finest rainforests, silver beaches, and sparkling oceans teeming with life – the Andaman and Nicobar Islands have been earmarked for large – scale tourism promotion and development. The Andaman Islands have the potential to emerge as the world's most erotic and high-end holiday destinations for eco-tourism, and for advent tourism.

Tourism creates more jobs than do the agriculture and industries sectors. Keeping in view the ecology and limited carrying capacity of the islands, a balances should be struck between environment and economic development through tourism.

Despite their unique natural wealth, the Andamans have been attracting meager tourist traffic – about 90,000 per year. Chennai and Kolkatta are the only gateways to the islands. High –spending tourists from Europe and America take four to six days to reach the destination, and non-availability of tickets between foreign destinations and India and from the mainland to Port Blair deters tourists
