   a) Gently
   b) Fast
   c) around
   d) deep

Passage –7

Read the passage and answer each question below in a short sentence.

Some people suffer from an inability to sleep, a disease called insomnia and it may be due to different factors. The first factor many be 'biological imbalance'. Sleep is caused by a sleep system and wakefulness is caused by an arousal system. Both the systems are governed by the brain. In order to have a good sleep, the arousal system must be less and the sleep system must be more. When the arousal system goes up due to tension, insomnia many occur. Drugs are the second factor. People who consume alcohol habitually become prey to insomnia. Drugs like stimulants, sedatives, certain thyroid drugs and heart medicines can cause sleeplessness. Both sleeping pills and alcohol appear to promise better sleep. But habits and disturbing environments are the third factor in making one lose his sleep. If the bedroom is too noisy or too cold it may make one keep awake. If the stomach has too little or too much food, it may cause sleeplessness. Physical exercise too close to bedtime also confuses the sleep mechanism.
