   b) angrily
   c) oddly
   d) seriously

Passage –11

In the eighteenth century, two men, a French Professor, Gabriel Venel, and a British chemist Joseph Priestly made a rather pleasant discover. They found that water charged with carbon – di –oxide tasted rather nice. Jacob Schweppe, a Swiss chemist began to manufacture soda water in England. This was marketed under the name Seltz. Soon, soda water became a popular refreshment.

By the beginning of the 19th century, many factories and bottling plants were set up in Europe and the United States to make and bottle this artificial ' mineral water'

Later on, it was discovered that soda could be flavoured too. You could have tasted orange flavoured or lime flavoured soda… but the most popular flavoured soda grew to be the cola. This flavor is taken from the cola tree that grows in the tropical parts of Africa, South America and Asia.

Coco-cola, which is now one of the most popular carbonated drinks, was first served in 1886 at a medical ship in Atlanta, Georgia, in South America. IT marked a first in the flavouring of carbonated water.

Questions:

1. The pleasant taste of water with carbon-di-oxide was discovered in the _____century.

   a) seventeenth
   b) eighteenth
   c) nineteenth
   d) twentieth

2. Soda water was manufactured for the first time in _____.

   a) Sweden
   b) France
   c) England
   d) The United States

3. The most well-known flavoured soda is _____
