FILLING IN FORMS

We learnt to fill in forms in Class XI. Let us look at some more forms.

OPTICAL MARK RECOGNITION (OMR) FORMS

Every college or university has to deal with lots of admission forms every year. Checking each admission form manually is a big task and hence most institutes issue OMR admission forms to the students. The advantage of this type of admission form is that it becomes a soft copy automatically when it is scanned. With a good OMR software and a normal scanner, it is possible to evaluate huge numbers of admission forms easily.

Instructions to Fill OMR Admission Form

The admission form asks for more detailed information. Along with the name, date of birth and other such basic information, it also requires information like names of the students' parents, marks acquired by the student, etc. As this information would be recorded with the institute, it is important that mistakes are not made while filling the form. Therefore, it is essential to know about the rules of filling the OMR admission form.

- The students should take several photocopies of the admission form before filling up the actual form. It would be best to practise on these photocopies first. This would prevent the occurrence of unnecessary errors on the original form.
- Remember that a tampered OMR admission form cannot be scanned properly. Ensure that it is not folded.
- Always use a black or blue ballpoint pen for filling the form. Most institutes specify the colour of the pen to be used on the form.
- Never use a stapler on the form. If you have to attach your photograph on the form, always do it with glue.
- The circles that you have to fill should be completely shaded. Light or half-filled circles would not be read by the scanner software.

The OMR admission form is a document that would help you to secure admission in a college or university. Hence, make sure that you fill the form carefully without making any errors.
