PAPER PRESENTATION

Paper presentation is all about how you present your topic in front of an audience. Hence, the way you present the topic, the way you put across your points, presentation style and language are important.

Paper presentations must be dynamic, informative and enjoyable. Here are some guidelines to help you prepare for it.

1. Know the requirements: Know how long your presentation should be. Know how many points you have to cover. Check if you must include visuals.

2. Know your audience: Know the background of the audience – what they know and what they don't know about the topic that you are going to present. If it is your own classmates, you will know how to break your paper down and what to gloss over.

3. Create a script for your presentation: It is always good to have notes written down for what you plan to say. This way you will be able to remember everything that you want to say and you will sound like you are talking. You will also be able to make eye contact. Number your points to avoid getting mixed up.

4. Design visual aids to make your presentation better: You can use visual aids like slides, graphics, charts and bullet points to make your presentation more captivating.

5. Think in terms of conversation: You are going to address a human audience. So, it's okay to be repetitive. But make sure to emphasize important ideas.

6. Practise before you present: Practise as many times as you need to overcome nervousness. Welcome your audience and remember to thank them at the end of the presentation. Then open the floor for any questions and be prepared to answer them.

Below are some topics that can be used for paper presentations. Choose one of the topics and present a paper for about 3 to 5 minutes.

1. Challenges on the road
2. Infrastructure
3. Keep safe, stay alive.
4. Innovative measures to ease traffic.
